SUBJECT INDEX

Aflatoxin B_1, evaluation of particulate air samplers, 215
Aflatoxin B_1 and pulmonary fibrosis, 153
Air samplers, evaluation for aflatoxin B_1, 215
Antimony trioxide and antimony ore, carcinogenic effects in rats, 607
Azo dyes:
  comparative mutagenicity studies in *Salmonella typhimurium*, 111
  excretion following cutaneous application of, 347

Benzene, in ambient air and breath of smokers and nonsmokers, 567
Benzo[a]pyrene, lung metabolism in rats treated with *p*-xylene and/or ethanol, 257
Benzylchloride, effect on rat liver functions, 431
Bipyridylium herbicide, cytotoxicity of paraquat and diquat, 393

Cadmium:
  in female farmers in nonpolluted areas of Japan, 357
  in quail fed earthworms, 369
  in quail fed sludge-grown oats, 315
Cadmium and metallothionein, effect of dietary zinc deficiency on, 301
Cadmium and zinc, effects on antibody-dependent cell-mediated cytotoxicity, 293
Carbaryl with malathion, kinetics in the rat, 241
Cholinesterase, depression among workers occupationally exposed to organophosphorus pesticides as reported in various studies, 1
Coal fly ash, phosphatidylcholine metabolism in rat lung exposed to, 471
Cotton brack extract, effect on airway smooth muscle in guinea pigs, 189
Cyclophosphamide, immune function of mice following in utero exposure to, 25

Decalin (*cis*- and *trans*-), metabolism in rats, 285
Decarboxyfenvalerate, subchronic feeding study in rats, 77
δ-Aminolevulinic acid dehydratase, effect of triethyl lead chloride on, 639
Diquat and paraquat, bipyridylium herbicide toxicity of, 393
Disodium cromoglycate, effect on cerebral blood flow in primates, 91
Doxorubicin toxicity, influence of ubiquinone antagonists on, 231

Ethanol:
  effect on methyl mercury toxicity in rats, 595
  protective effect of zinc against toxicity in mice, 41

4,4′-Methylenedianiline dihydrochloride, carcinogenesis studies in rats and mice, 325

GABA-induced chloride influx, effect of insecticides on, 13
γ-Hexachlorocyclohexane (Lindane), to determine ontogeny of metabolism in developing rat, 527

Hematology values, reference range data base for animals, 161
Hepatotoxins, acute toxicity in *Suncus murinus* induced by, 575

Lead-induced renal functional deficits, resistance of rat to development of, 61
Lindane (γ-hexachlorocyclohexane), to determine ontogeny of metabolism in developing rat, 527
Lithium, inhalation toxicity in rats, 627

Malathion and carbaryl, kinetics in the rat, 241

Metallothionein and cadmium, effect of dietary zinc deficiency on, 301
Methylmercury, sex and age differences in mercury distribution and excretion, 49
Methylmercury toxicity, effect of ethanol in rats, 595
Multiparameter analysis, to quantitate hematological damage from a chemical (ethylene oxide), 543

n-Dodecane and other straight-chain alkanes, effect on liver and lung cytochrome P-450, 409
N-formyl-1-aminopyrene and 1-aminopyrene, biotransformation from 1-nitropyrene, 339
n-Hexane and other straight-chain alkanes, effect on liver and lung cytrochrome P-450, 409
Nicotine *N'*-oxides, effect on rat metabolism, 205
N,N-Diethyl-*m*-toluamine (DEET), review of biodistribution and toxicity of, 503

o-Benzyl-*p*-chlorophenol, disposition in male rats, 441
1-Aminopyrene and *N*-formyl-1-aminopyrene, biotransformation from 1-nitropyrene, 339
1-Nitropyrene, biotransformation to 1-aminopyrene and *N*-formyl-1-aminopyrene in human intestines, 339
Organophosphorus pesticides, cholinesterase depression among workers exposed to, 1
Ortho-benzyl-*para*-chlorophenol (BCP), metabolism and disposition in male rats, 267
Ozone:
  activity changes in lung after exposure as demonstrated by cell adherence, 483
  effect on airway permeability to horseradish peroxidase in guinea pigs, 121
  effect on gas trapping in guinea pig lung, 133
Ozone toxicity, mechanism in cultured cells to reduce clonogenic ability of polyunsaturated fatty acid-supplemented fibroblasts and effect of vitamin E, 491

PAH from coal fly ash, fetal translocation and metabolism of, 459
Paraquat and diquat, bipyridylium herbicide toxicity of, 393
Phosphatidylcholine from coal fly ash, metabolism in rat lung, 471
Pyridostigmine, muscle fatigue induced by, 221

Sarin, hypersensitivity to antimuscarinic agents following exposure to, 103
Saxitoxin, bacterial bioassays for and evaluation of, 589
Serum chemistry values, reference range data base for animals, 161
Soman, hypersensitivity to antimuscarinic agents following exposure to, 103
Sulfuric acid, effect on gas trapping in guinea pig lung, 133

Telone II, chronic toxicology and carcinogenesis in rats and mice, 377
Triethyl lead chloride, effect on δ-aminolevulinic acid dehydratase, 639

Ubiquinone antagonists, influence of doxorubicin on, 231

Vitamin E, effect of ozone on polyunsaturated fatty acid-supplemented fibroblasts, 491

Welding fumes, toxic effect on macrophages in vitro, 143

Yohimbine, effect on amitraz-induced CNS depression and bradycardia in dogs, 423

Zinc:
  effect of dietary deficiency on cadmium and metallothionein, 301
  protective effect against ethanol toxicity in mice, 41
Zinc and cadmium, effects on antibody-dependent cell-mediated cytotoxicity, 293
